DomusLift®

ELEVATING YOUR LIFESTYLE

ING. G. VOLPE IGV

ELEVATORS SINCE 1966

BORN IN MILAN

Milan has always been the capital of fashion and design.

A city where art, style, elegance and innovative choices are brought together.
This is the environment where IGV was born and grown up.
This is where we have been creating, designing and manufacturing our elevators since 1966.
Today we export 70% of our products abroad and we are proud to be chosen by a large international clientele.
As the leading European specialist for luxury residential elevators,
we want to offer our customers a safe ride into the very best of Italian engineering and design.

ELEVATING YOUR LIFESTYLE
made in
Italy

40,000 DomusLift®
operating worldwide

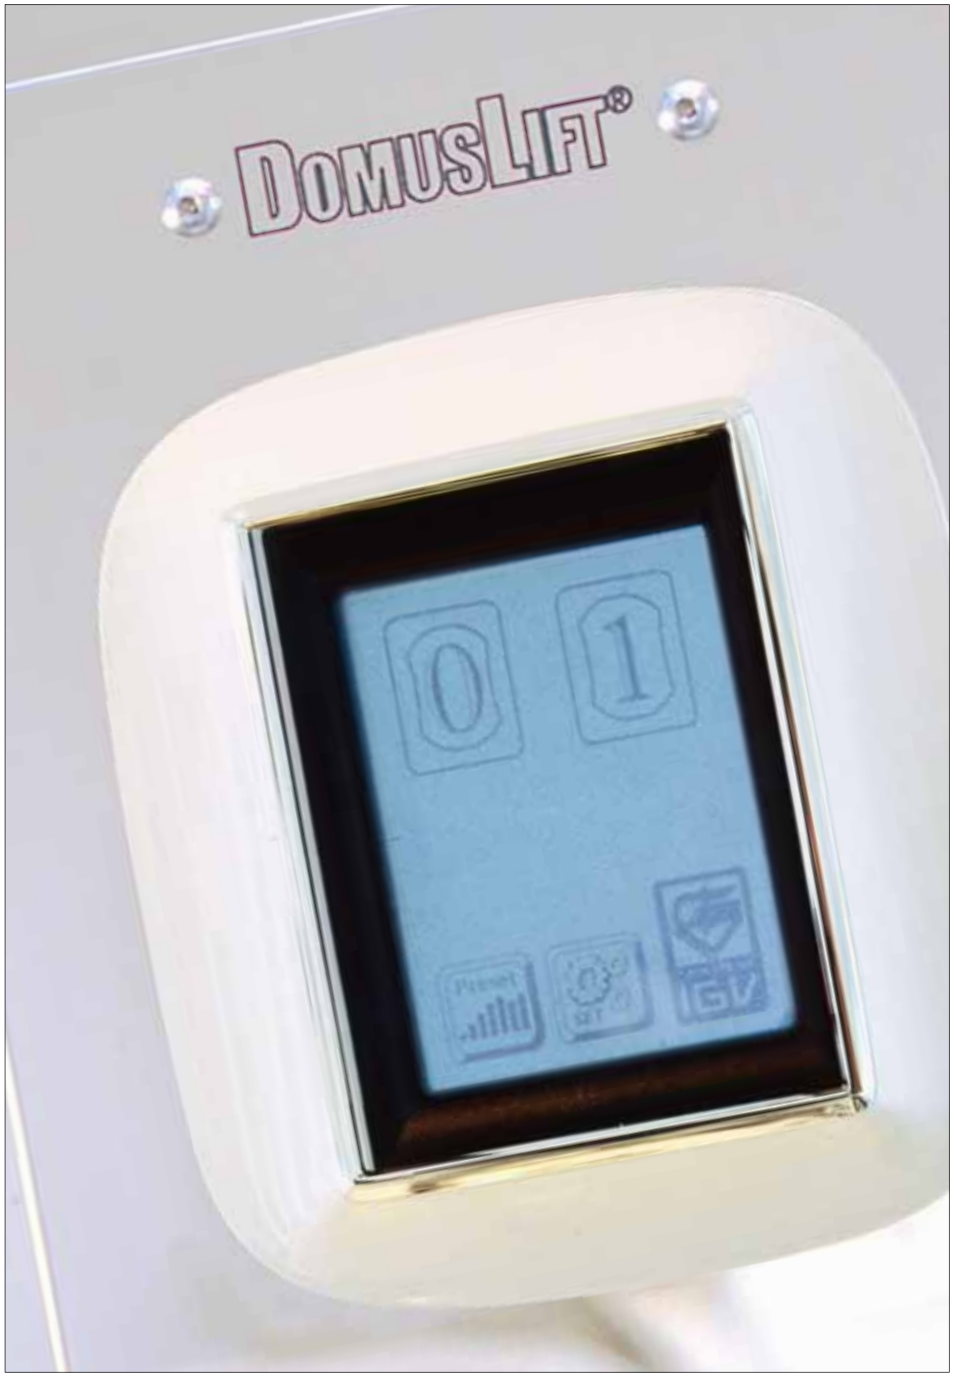
The Iconic Crystal Clear

The DomusLift® MADE WITH SWAROVSKI ELEMENTS
embodies the epitome of elegance
in a sophisticated combination of steel and crystals.

The interior glossy black steel walls are spectacularly illuminated
by a stripe of sparkling SWAROVSKI ELEMENTS,
creating the effect of a diamond cascade.

MADE WITH SWAROVSKI ELEMENTS

DESIGNER: ARCH. ARIANNA CALLOCCHIA



The Hi-Tech Style

State-of-the-art accessories for the DomusLift® Light Touch model signed by Giugiaro Architettura,
a brand that is a legend in automotive design worldwide.

The innovative light system features
a range of colours that can be selected
to achieve different lighting moods,
while the stylish touch screen control panel
gives hi-tech makeover.

The Charm of Mosaics

B+Unique with the mosaics from Liberty Collection
created by Trend Group, the masters of mosaic since 2000.

The sophisticated harmony of Art Deco'
inspired the cab interior décor of the DomusLift® –
a combination of glossy and matt tiles cut in different sizes,
showing an innovative approach in laying mosaics.

Liberty is available in different colors,
you can choose from and create your own combination.

Satisfy your inner designer and live your dream.

The Beauty of Glass

Clean and essential lines
for the best-selling of the DomusLift® range.

The fully panoramic elevator is contained
in a compact stand-alone structure
maximizing the effect of natural light and transparency.

A minimalistic yet impressive design concept
that can easily blend into the style of your house.

A Step into the Art World

A new elevator concept inspired by art.
The DomusLift® Art Line Collection
introduces precious laminated walls painted
through the “frottage” technique.

Studio Salvati
Architetti Associati

The multicoloured surrealistic images enriching the walls
have been exclusively created for IGV,
along with the made-to-measure floorings
in marble stones or inlays of crystal cotisso.

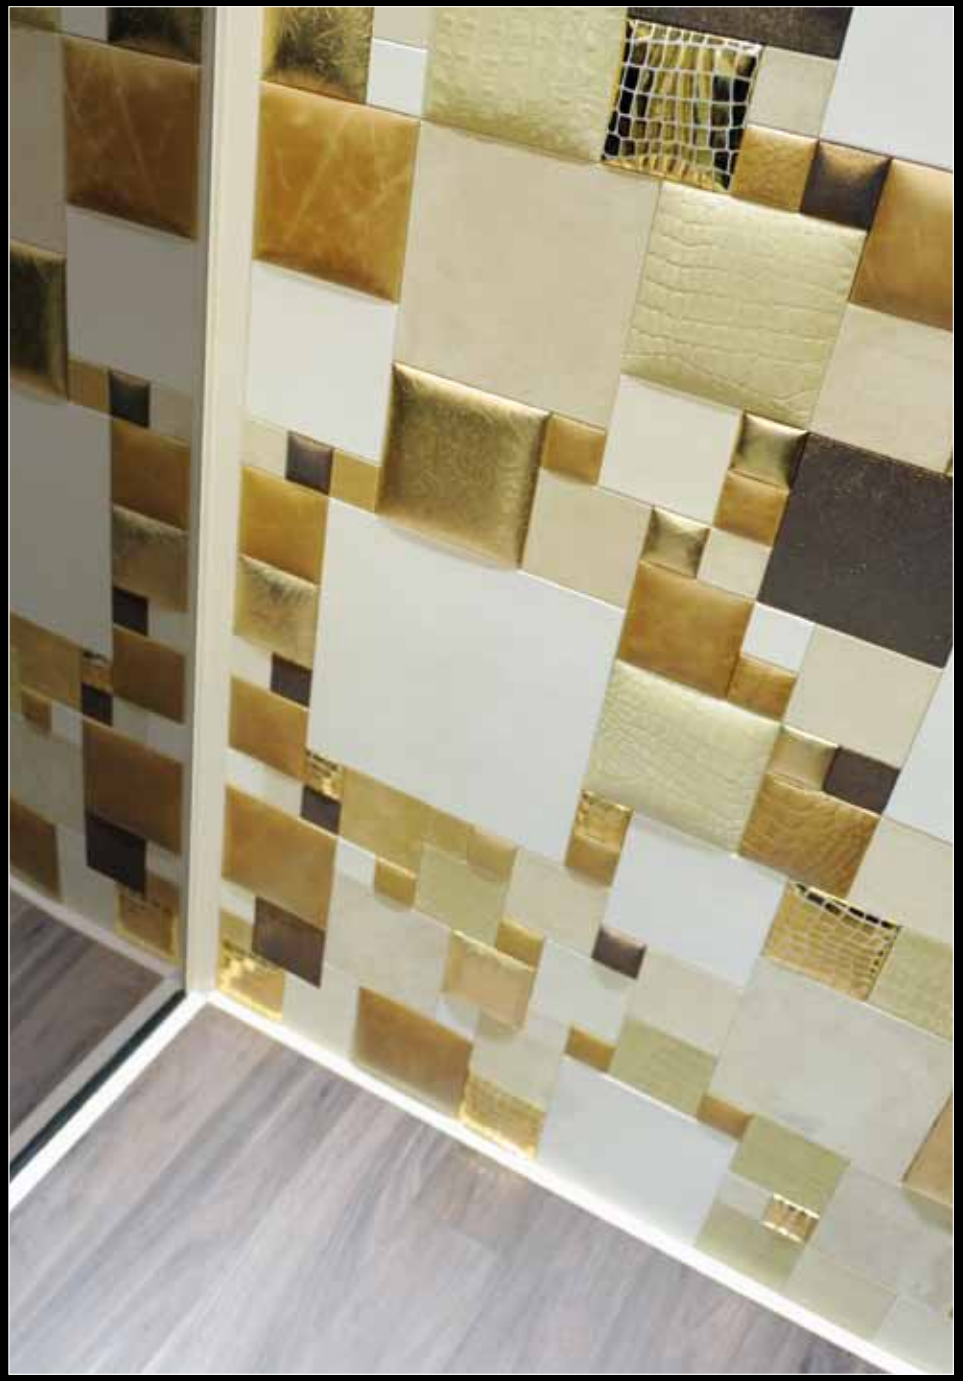
The Classic with Style

The DomusLift® Classic model
is designed for those who love the beauty
and traditional warmth of wood, a timeless style.

The “wood effect” has been obtained
through the innovative “powder on powder”
paint system on the aluminum profiles.

The artistic glass door is decorated
with liberty floral design.

classic



The Gold Experience

The DomusLift® Gold is dedicated to people who love extreme luxury.
The hoistway structure and the door frame
are made with gilded aluminum.

The overall sparkling effect, which lights up any setting,
is further emphasized by the rich inside panel
padded with a clever mixture of skin and leather.

Engineer Giuseppe Volpe,
Founder and Chairman of IGV Group,
in a Gianluigi Colin art work.

IGV, nearly half a century in the elevator industry

IGV was founded in 1966 by Giuseppe Volpe, an engineer playing a pivotal role in the promotion of the elevator industry in Italy and Europe.

Giuseppe Volpe is co-founder of ANICA (Italian National Association of Elevator Component Manufacturers) and currently holds the office as Honorary President.

IGV is a privately held company and belongs to the Volpe family.
Both first and second generation of the family are actively involved in the management of the company.

IGV has built up its reputation as leading designer and manufacturer of custom residential elevators with the widest range of models in the market, both in dimensions and design.

IGV is an export-oriented company (70% of its production goes abroad) with a dealer and customer network covering 70 different countries worldwide.

Matteo Volpe, second generation of the Volpe family, is general manager and vice president of the company.
He currently holds the presidency of ELCA, the European Lift Components Association.
